

# EE 102A - Assignment 10

Nicholas Dwork

**Problem 1.** Think back to how you felt when you started my class? What were you expecting? How did the reality differ from your expectations? Is there anything that you wish someone would have told you when you started? What did you gain? Was it worth it?

I'm thinking forward to next class when I have a new set of students in this same position. I would love to have you give them a few words of wisdom from your experience. Please write a letter to the incoming students. Provide them with a few thoughts about what they are about to do. Be as open and honest as you feel comfortable expressing.

Again, thank you so much for participating in my class this summer!
